Cottage
Product Fact Sheet

MIZETTO

Cottage

Cottage is an architectural storage; a hybrid between sculpture and function. With dynamic modules that can change use from one day to another, Cottage questions the traditional definition of storage.
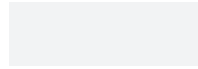

A larger, shared cabinet for the entire team can be dedicated to any particular project. Your personal belongings get their own locker. By programming the lockable cabinets, they can be occupied by different users for different needs. The open modules furnish creativity. A structure with changing content, for all.
