# Pelican

Pelican is a practical necessity transformed into an eye-catching interior design object.

This pedal bin is a series of recycling bins for the modern office that does not compromise on style or the environment.

Pelican is available in two sizes and a variety of colors. Its minimalist look and modular shape means it works equally well on its own or in a group. When placed back-to-back, it creates an oval shape, and when placed against a wall, it creates an almost cloud-like organic undulating shape.

The refined design and simplicity of the pedal bin allows it to blend in or take up space, depending on where it is placed in the room. And it works equally well in the home, the office or as a large recycling station in a public environment.

---

<b>Design</b>	Studio Nooi
<b>Environment</b>	Indoor
<b>Material</b>	The bin consists of 8-30% recycled metal and is powder coated. The powder coating provides both environmental and quality benefits as no solvents need to be added and the amount of waste is minimum.
<b>Paint/Lacquer</b>	Powder coated metal.
<b>Country of origin</b>	Sweden
<b>Features</b>	Soft closing lid.
<b>Preassembled</b>	Fully assembled.
<b>Repairability</b>	Lid, pedal and damper can be replaced.
<b>Bag replacement</b>	From the top.
