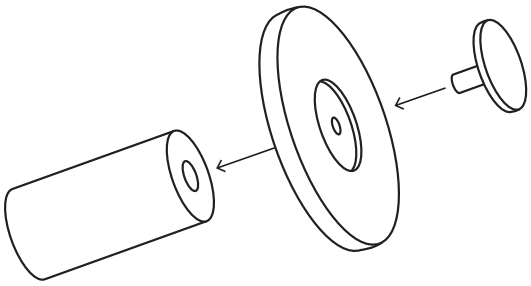
THE WALL MOUNTED COAT RACK

1. ASSEMBLE HOOKS

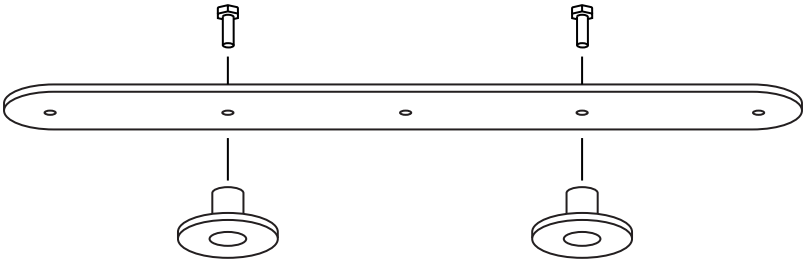
Start by assemble the five hooks. No tools are needed in this step.



2. MOUNT HOOKS

Mount two of the hooks in the second and forth hole of the wall plate.
Use hec bolts ant block key to assemble.

Use two allen bolts M6x16mm.

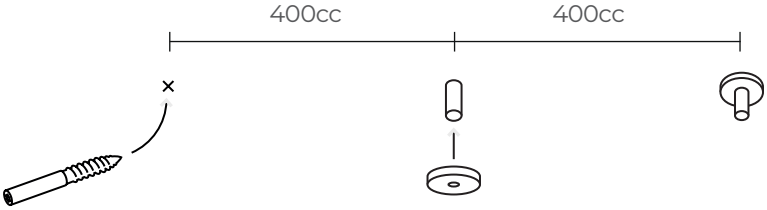


3. PREPARE THE WALL

Measure out three holes with cc400mm. Use a water level to make sure they are horisontal.

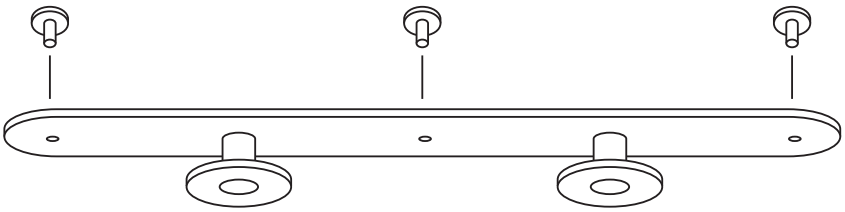
Then screw in the torx screw pin with the screwdriver.

Then attach the wall distance.



4. MOUNT THE WALL PLATE

With the wall distance on all of the wall pins mount the wall plate.



5. SECURE THE WALL PLATE

Now use the three remaining wall hooks to secure the wall palate. No tools are needed in this step.
