MIZETTO

Parker

The circular aspect is central to Parker, our inaugural bench designed for both indoor and outdoor use. With interchangeable parts and easy assembly, Parker offers a flat-pack solution, ensuring its longevity as a preferred seating option for people who like to sit.

The bench boasts a sleek design held together by sophisticated construction techniques. A slim metal band seamlessly integrates with robust bamboo boards, creating an illusion of levitation at one end—a testament to its durability, adaptability, and aesthetic appeal.

Our curiosity and lust of experimentation led us to bamboo as the chosen material for the seat boards. Renowned for its low CO2 footprint and natural resistance to rot and mold, bamboo is also fast-growing. Consequently, Parker is designed to withstand the rigors of nature and the passage of time. For outdoor use, Parker can be securely bolted to the ground.

Design	White Arkitekter, Andreas Sture
Environment	Indoor/Outdoor
Material	<p>Metal Frame: The frame consists of 70% recycled metal and is powder coated. The powder coating provides both environmental and quality benefits as no solvents need to be added and the amount of waste is minimum.</p> <p>Table tops are painted and made of environmentally friendly bamboo.</p>
Country of origin	Sweden
Certificates	<p>EN 350 Durability Class 1 Tested to standard ENV 12038:2002 Tested to standard ENV 807:2009 EN 355 Use class 4</p>
Preassembled	Partial assembly required, see assembly instructions.
Repairability	The tabletop and the metal frame are interchangeable.
