

Tarsia
Product Fact Sheet

MIZETTO

Tarsia

A table where craftsmanship takes center stage in the visual design. The joints create a gentle rhythm across the surface, softly framed by generous curves that lend the form a sense of calm and balance.

Tarsia feels stable, with a natural sense of weight in its design. Distinct in its silhouette, warm in its presence.

The dimensions are carefully tailored to function as a natural module for Cargo—but Tarsia stands just as firmly on its own.

Design	Addi Design Studio
Environment	Indoor
